Subject: FW: Personnel Verification

FYI. The office has been calling those who requested their personnel folders to verify information. While it's up to you how to respond, we take the position that the entire review process is negotiable; our attorneys are in the process of reviewing their folders; and meetings should be held with a union representative to go over this information. We anticipate that a revised data sheet will be sent to all attorneys. For now, we suggest you hold off setting up a meeting.

On other matters, Tuesday we filed a grievance claiming that we received improper and inadequate notice of the revised strategic plan and that the office failed to provide an opportunity to bargain.

Yesterday we filed ground rules for upcoming bargaining. Today we will file an information request to help us prepare for bargaining and challenge the proposed RIF. Friday we will file collective bargaining proposals, which will be extensive.

We will continue to post information at our web site at <http://nteu245.org/>.

Have a good holiday.
